

ALSAFLOOR

LAMINATE FLOORING 2020

At Alsapan

we manufacture 3 types of flooring

LAMINATE FLOORING

RIGID VINYL

ENGINEERED WOOD

Quality

MADE IN FRANCE

A family-run company located in Alsace, in eastern France, was founded in 1972 by Joseph Strub, a carpenter by trade. It now operates 6 manufacturing facilities in France, producing millions of kit furniture units and worktops every year.

Innovation

IN 2020

Alsapan has decided to innovate some of its most aesthetic decors !

701 Plato

702 Aristotie

By the acquisition of **2 new synchronised decors**, ultra-matt imitating to perfection the most beautiful wood grains !

By acquiring a **new ultra-matt structured metal press-plate** to accentuate the most beautiful wood finishes.

An environmentally-conscious company

Innovation, research, and eco-responsibility have always been part and parcel of our corporate DNA. Our innovations aim to reduce wood consumption and minimise our products' impact on the environment.

Our R&D sets out to continually heighten customer satisfaction and it is through you that we can show consumers our collections of easy-living products, within reach of all budgets.

All Alsapan flooring products are **PEFC™ certified**. The wood used in our flooring is sourced from sustainably-managed forests - we never use exotic woods or wood from tropical forests. Our production facility is geographically close to our raw material suppliers and retail outlets, which allows us to reduce shipping distances and CO₂ emissions. Our Marlenheim facility is exemplary in its **environmentally-responsible actions**, which help maintain our planet's natural resources.

•
Its roof is fitted with solar panels,

•
Employees are actively seeking to reduce paper consumption and to recycle it,

•
The plant uses production waste products as an energy source for heating the buildings and the machines

A+, for a healthy habitat!

Introduced on 1 January 2012, the **health safety labelling** on product packaging gives consumers details of the amount of volatile substances released into the interior air by flooring and is ranked on a scale from Class A+ (very low emissions) to Class C (high level of emissions).

ALSAFLOOR products are ranked A+, with a formaldehyde emission rate of well under 10 µg/(m² x h), based on tests performed by an independent laboratory.

*Information as to emissions of volatile compounds in the indoor air, which might be harmful to the health when inhaled, on a scale from Class A+ (very low emissions) to C (high emissions).

Structures

520 Chocolate Walnut

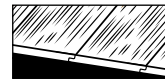

NEW

Matt textured

The ultra-matt surface and grain structure gives a perfect wood imitation !

453 Pilat oak

Matt wood structure

A soft, velvety matt look and feel.

529 Almond oak

In-Registered texture

A raised surface that appears to follow the wood veins of the pattern and produces an effect of authenticity. Outstandingly realistic!

- With satin-finish surface for the decors:

410 / 448 / 449 / 450 / 420 / 518

- With oiled-finish surface for the decors:

528 / 529 / 535 / 536 / 541 / 542.

- And a new ultra-matt finish for the decors:

701 / 702

621 Canaries oak

In-Registered texture heliochrome

A mat / glossy effect (mat on the surface and glossy in the wood grain) for a deeper and more noticeable structure.

For a better understanding

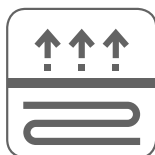

PRODUCT CROSS-SECTIONS

PICTOGRAMS TO MAKE LIFE EASIER!

Easy to clean

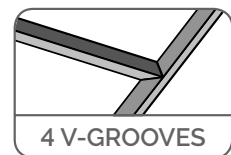

Suitable for laying with underfloor heating.

Dust-mites free

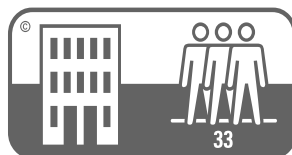

Panel average density

The boards are bevelled lengthwise and widthwise to produce an authentic look of the flooring of yesteryear. The joints are lacquered for easy cleaning and optimized tightness.

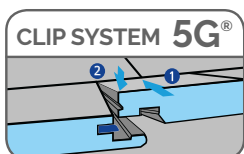

Classes of use:
Heavy domestic and commercial use.

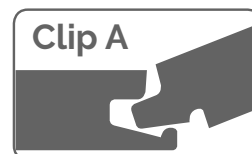

The wax layer on both sides of the joint creates a seal and prevents water ingress.

Compatible with damp areas due to protection of the joints: click fitting, paraffin wax in the grooves and water repellent paint applied to the V-groove edges.

The 5G® locking system enables a significantly fast and easy installation. A reinforced plastic tongue on the short side of the floor panel results in a strong and robust locking, emitting a "click" sound and locking the planks vertically.

Click assembly combined with tapping into position of the ends

*Information as to emissions of volatile compounds in the indoor air, which might be harmful to the health when inhaled, on a scale from Class A+ (very low emissions) to C (high emissions).

The EC symbol on all our products certifies that they are produced in compliance with currently applicable standards and that they can move freely between countries within the European Community.

Our products are made from wood taken from sustainably managed forests and PEFC certified.

The accessories

SKIRTINGS AND SCOTIES, COORDINATED WITH EACH FLOORING DESIGNS

SKIRTING 58 MM

Dim: 2200 x 58 x 12 mm

X 5 skirtings = 11 ml

Installation: to clip, tack, screw
or glue.

SKIRTING 80 MM

Dim: 2200 x 80 x 15 mm

X 5 skirtings = 11 ml

Installation: to clip, tack, screw
or glue.

SCOTIES

Dim: 2200 x 16 x 16 mm

X 10 skirtings = 22 ml

Installation: to tack, screw
or glue.

HDF-COATED PROFILES, COORDINATED WITH EACH FLOORING DESIGNS

TRANSITION SECTION PROFILE

Lenght: 900 or 1800 mm.

X 10 units, film-wrapped, PVC base and hardware
included. Concealed slot-in installation with PVC base.

T-SECTION PROFILE

Lenght: 900 or 1800 mm.

X 10 units, film-wrapped, PVC base and hardware
included. Concealed slot-in installation with PVC base.

Sold individually

Also available for 12mm thick flooring ranges

The accessories

UNDERLAYS

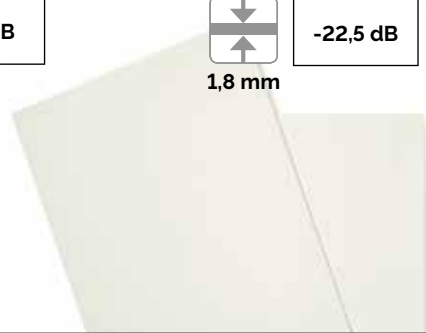

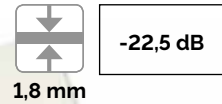

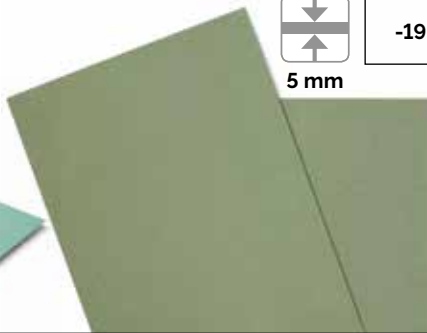

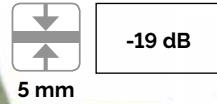

ALSAPROTECT THE INDISPENSABLE

1 box = 20 sqm
An indispensable part of any laminate or parquet flooring installation. It prevents moisture rising. (150µ thick).

ALSAPLUS 2 IN 1

1 roll = 20 sqm
Compensates uneven surfaces and provides heat insulation. It comes ready-fitted with a vapour barrier (150µ thick).

AQUASTOP ACOUSTIC AND THERMIC

1 box = 6 sqm
Compensates uneven surfaces and provides heat insulation. It comes ready-fitted with a vapour barrier.

FLOORISOL ACOUSTIC, THERMIC AND ECOLOGICAL

1 box = 7 sqm
This wood-fibre underlay is ecological and 98% natural. It provides both thermal and acoustic insulation. It will reduce impact noise.

CONFORLAY ACOUSTIC, THERMIC AND ECOLOGICAL

1 box = 7 sqm
This wood-fibre underlay is ecological and 100% natural. It provides both thermal and acoustic insulation. It will reduce impact noise. It can also be used with vinyl flooring.
